DIVINGor not DIVING ?

IS IT A TECHNICAL ISSUE ?

FACTS AND QUESTIONS

-It seems that more and more modern throwers are diving after the delivery . Is this a technical research or just a consequence of trying to throw faster and not being able to block at higher speeds ?

FACTS AND QUESTIONS

Biomechanically , one can give priority to either of the 3 components of the throw resulting delivery force : Vertical – Longitudinal – Rotational . "Diving" or "not diving" put emphasis on different components . is there a matter of improving on one side and losing on the other ?

DIVINGor not DIVING ?

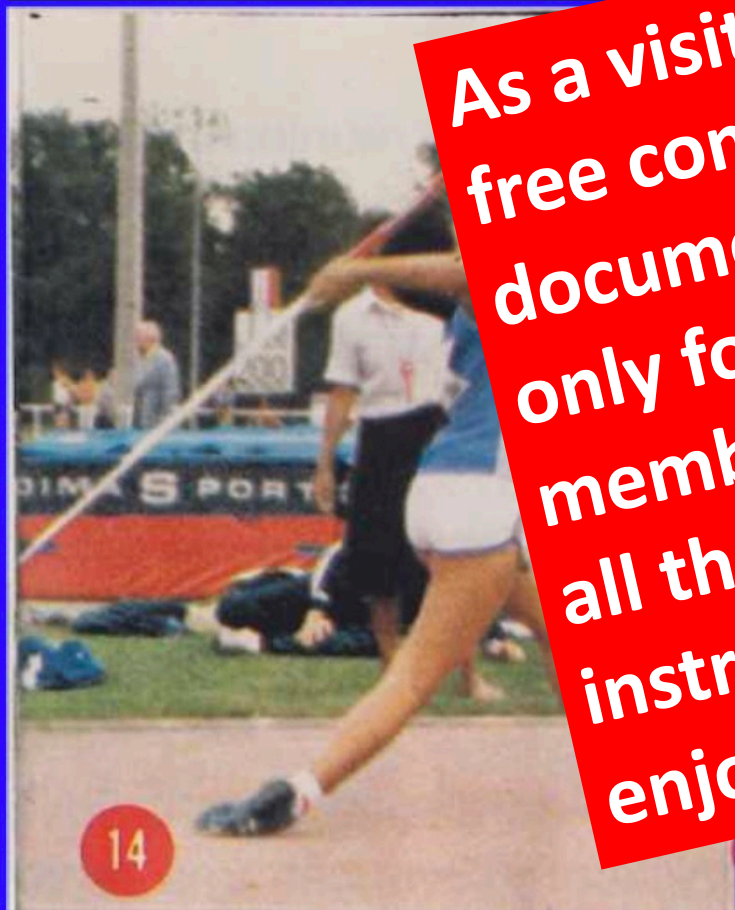

IS IT A TECHNICAL ISSUE ?

FACTS AND QUESTIONS

Since AI CANTELLO , the pioneer of the "diving" technique , records have been broken using either of these techniques . Does the thrower morphology and "diving" technique affect the performance ?
